ENVIRONMENTAL POLICY

*We are committed to safeguarding the natural environment
by conducting business in responsible manner
and meeting all requirements.*

We fulfil this commitment by:***Knowing what we need to do***

Determining how we affect the environment and impact the community, and what we need to do to control it.

***Setting objectives***

Clearly defining our environmental goals and measuring our progress in reaching them.

***Continuously improving***

Enhancing our environmental performance by continuously evaluating our systems to ensure that they are robust, credible and reliable.

***Evaluating our compliance and status***

Conducting reviews to ensure we correct and prevent problems and remain compliant with all environmental legislation.

***Sustaining our environmental stewardship***

Continuing to provide environmental, economic, and social benefits to the community through responsible environmental management.
